

Nitrogen Seal

- Pull on seal with strong, round, smooth strap of 4 mm diameter.
- Produced and developed by Peever International in Belgium.
- Integrated stainless steel locking mechanism offers extra security against abuse.
- Prongs to provide a better support on bags.
- Tear off line near the locking mechanism for manual removal after using.
- Available from stock with standard identification:
ONDER STIKSTOF / UNDER NITROGEN / UNTER STICKSTOFF / SOUS NITROGENE
- Several printing options on request (large amounts only).
- Suitable for applications for which strength, a long strap length and/or a large information carrier is important.

Available colours: ●
