

PRODUCT CODE: TB010.. | **COLOURS:** Blue (02), Red (12) or Clear (15)

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 255mm (H) x 275mm (W) x 38mm (D)
- Heavy Duty Nylon Reversed Zip
- Information window for identifying contents
- Bar code window
- Available in clear material for visibility of contents
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

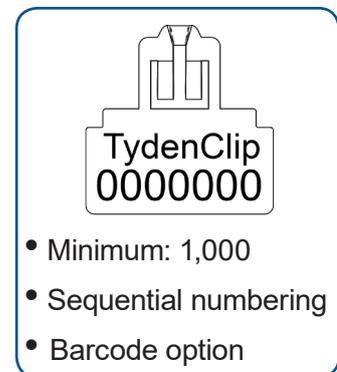

PRODUCT CODE: TB020.. | **COLOURS:** Blue(02), Red (12) or Clear (15)

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 285mm (H) x 355mm (W) x 38mm (D)
- Heavy Duty Nylon Reversed Zip
- Information window for identifying contents
- Bar code window
- Available in clear material for visibility of contents
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

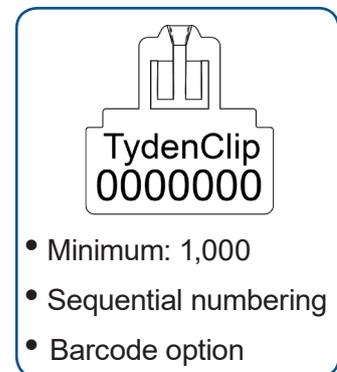

PRODUCT CODE: TB030.. | **COLOURS:** Blue (02), Red (12) or Clear (15)

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 250mm (H) x 180mm (W) x 38mm (D)
- Heavy Duty Nylon Reversed Zip
- Information window for identifying contents
- Bar code window
- Available in clear material for visibility of contents
- Complies with key control standard BS7499 Part 1
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

PRODUCT CODE: TB040.. | **COLOURS:** Blue (02), Red (12)

FEATURES AND BENEFITS

- Heavy Duty - 330 denier PVC coated polyester
- External dimensions: 200mm (H) x 215mm (W) x 38mm (D)
- Heavy Duty Nylon Reversed Zip
- Information window for identifying contents
- Bar code window
- Complies with key control standard BS7499 Part 1
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

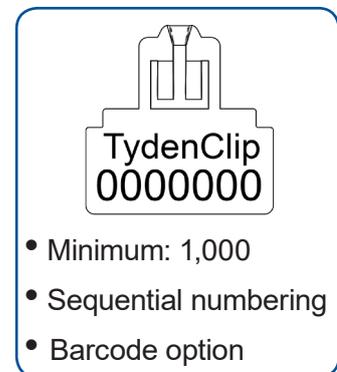

- Minimum: 1,000
- Sequential numbering
- Barcode option

PRODUCT CODE: TB050.. | **COLOURS:** Blue (02), Red (12)

FEATURES AND BENEFITS

- Heavy Duty - 330 denier PVC coated polyester
- External dimensions: 445mm (H) x 345mm (W) x 100mm (D)
- Ideal for heavy weight two-way transmission of document
- Address window for quick and easy despatch
- Provides protection during transit
- Franking slip fitment for Royal Mail usage
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

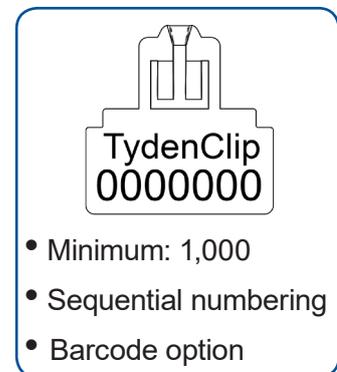

PRODUCT CODE: TB060.. | **COLOURS:** Blue (02), Red (12)

FEATURES AND BENEFITS

- Heavy Duty - 330 denier PVC coated polyester
- External dimensions: 280mm (W) x 125mm (H)
- Internally accessed window
- Bar code window
- Heavy Duty Nylon Reversed Zip
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

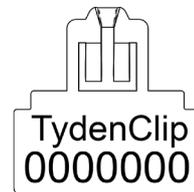

TB CASH RECEIPT BAG WITH HANDLES

PRODUCT CODE: TB070.. | **COLOURS:** Blue (02), Red (12)

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 460mm (W) x 360 (H) x 100mm (D)
- Wrap around reinforced handles
- Bar code window
- Double stitching
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

- Minimum: 1,000
- Sequential numbering
- Barcode option

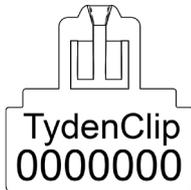

PRODUCT CODE: TB090.. | **COLOURS:** Blue (02), Red (12)

FEATURES AND BENEFITS

- Heavy Duty - 330 denier PVC coated polyester
- External dimensions: 480mm (W) x 320mm (H)
- Heavy Duty Nylon Reversed Zip
- Internally accessed window
- Bar code window
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

TydenClip
0000000

- Minimum: 1,000
- Sequential numbering
- Barcode option

PRODUCT CODE: TB08108 | **COLOUR:** Green

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 460mm (W) x 360 (H) x 102mm (D)
- Double stitching
- Padded to protect fragile items
- Internal window
- Bar code window
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

TydenClip
0000000

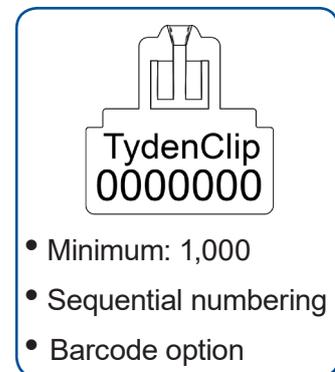

- Minimum: 1,000
- Sequential numbering
- Barcode option

PRODUCT CODE: TB08008 | **COLOUR:** Green

FEATURES AND BENEFITS

- Heavy Duty :330 denier PVC coated polyester
- External dimensions: 460mm (W) x 360mm (W) x 102mm (D)
- Double stitching
- Padded to protect fragile items
- Fully reinforced handles for heavy loads
- Bar code window
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

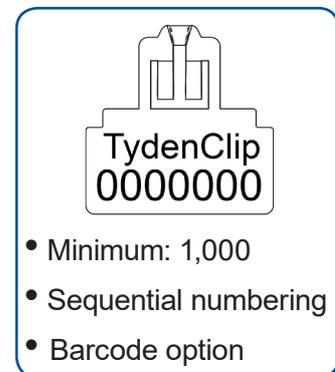

PRODUCT CODE: TB08214 | **COLOUR:** Yellow

FEATURES AND BENEFITS

- Heavy Duty: 330 denier PVC coated polyester
- External dimensions: 460mm (W) x 360mm (H) x 102mm (D)
- Double stitching
- Padded sides and insert prevent accidental breakages
- Fully reinforced handles for heavy loads
- Bar code window
- Tamper visible TydenBrooks 8 Chamber
- TydenClip chamber has tamper indicator breakout points
- TydenBrooks 8 Chamber to be sealed with the TydenClip
- TydenClip provides tamper evident protection
- Unauthorised access to the contents is identifiable
- Numbered TydenClips aid in the security of the supply chain
- TydenClip (Numbered) available in Yellow, White, Green, Blue and Red
- TydenClip barcoding available

TydenClip Security Bag Administrative Specifications

Advice on how to correctly seal a TydenClip Security Bag:

Step One: Pull the zipper closed using the chamber lid. Place the chamber lid in the chamber housing.

Step Two: Slide the TydenClip security seal into the chamber as shown below and record the number.

TydenClip security seals include a serial number. These serial numbers serve as a unique identifier. We recommend having a procedure in place to record the numbers prior to use and removal. TydenClip seals should be stored in a safe location prior to use. TydenClip seals should only be issued to authorised individuals and documented.

Advice on how to correctly remove a TydenClip Security Seal from a Security Bag:

Step One: Check the seal number matches the recorded number. If the number does not match your records, please advise the appropriate authority.

Step Two: Lift the tab of the seal up, the seal will break and the chamber lid is then used to unzip the bag. Dispose of the broken seal by removing the seal tab and legs.

Advice on tamper inspection of the TydenClip Chamber, TydenClip Security Seal and TydenClip Security Bag:

TydenClip Security Seal

Inspect the TydenClip seal for signs of tampering. This involves checking that the seal's material shows no visible stress whitening or weakening and the print looks consistent with the standard seals. Where additional security is required, it would be suggested that seals are not consistently issued in sequential order. An appearance comparison should be made against authentic TydenClip security seals. Prior to removing a TydenClip Seal by lifting the seals tab up resulting in the legs breaking, tug on the seal tab to ensure that it is securely sealed. Finally the seals serial number should be verified against the recorded data.

TydenClip Security Bag

Inspect the Security Bag for signs of tampering. The TydenClip chamber is firmly secured to bags that have been internally stitched for added security. It is important to do a full inspection of the bag including all seams to detect defects. An appearance comparison should be made against an authentic TydenClip security bag.

TydenClip Chamber

Inspect the chamber for signs of tampering. The TydenClip chamber has **tamper indicator breakout points** that crack if an attempt is made to remove the TydenClip chamber. An appearance comparison should be made against authentic TydenClip chambers.
